

WHAT WE DO ?

YINYU is not only a manufacturer of PBT yarn, it is also an expert of polyester series stretch yarn, which includes PET, PBT, PTT (members of polyester family).

WHAT IS OUR ADVANTAGE ?

- * more than 10 years' experience in PBT yarn.
- * only use best raw material (PBT resin) specially for yarn spinning (not for engineering plastics), which keeps the most stable yarn quality.
- * have spinning and texturizing machine both traditional and advanced Barmag machine to meet different requirements from customers.
- * wide range product types, from raw white to dope dyed black and color, from 20 Denier to 600 Denier.

SPECIFICATION OF PBT YARN AVAILABLE:

TEXTURIZED PBT (DTY)

20D/9F	50D/24F	100D/24F	200D/48F	400D/96F
30D/12F	75D/24F	100D/48F	200D/96F	450D/192F
40D/12F	75D/36F	150D/48F	300D/96F	600D/192F

PBT POY(partially oriented yarn)

All specification for final above DTY

COLOR AVAILABLE:

Raw white,Dope dyed black,dope dyed color

FEATURES AND BENEFITS OF PBT YARN:

- *Good elasticity and recovery
- *Anti- alkali and chlorine(perfect for swimwear)
- *Anti-bacteria,Anti-pilling,anti-heat
- *Good breathability
- *Chemicals and sunlight resistant (can withstand ultraviolet light)
- *resistant to humidity and perspiration

MAIN APPLICATION OF PBT YARN:

- Denim fabrics
- Knitted sportswear
- Stretch Medical fabrics
- Swimwear
- Car interior fabrics
- knitwear

* Knitwear should use core spun yarn, which is made of PBT yarn
